Technical: HTML 5, Tailwind CSS, JavaScript, Node.js, Express.js, React, Data Visualization, Java, SQL

Tools: AWS (S3, EC2), Git & GitHub, Tableau

PROJECTS

Landing Page EliteTube

03/25 – 04/25 [ongoing]

Elite Tube is a MERN stack based platform allowing users to subscribe to their preferred creators and participate in exclusive, paid one-on-one chats, EliteTube, a platform built on the MERN stack, is revolutionizing content interaction. For real-time message using techniques like Socket.io, provides a smooth and attractive user experience using techniques such as cloudinary for effective video storage and razorpay for safe payment. This platform provides personal access to premium content to customers by empowering creators with new revenue currents. Users can subscribe to their favorite channels, unlocking exclusive content and features.

- Subscribers have the opportunity to engage in one-on-one chats with content creators through a secure, paid system.
- Payments for subscriptions and chats are processed securely via Razorpay, ensuring a smooth transaction experience.
- The platform supports instant messaging between creators and subscribers through WebSockets (Socket.io), facilitating real-time interactions.
- Utilizing Cloudinary, EliteTube offers efficient and reliable video storage and streaming solutions.
- HTML, CSS, JAVASCRIPT [only the landing page]
- Not responsible for mobile user , we will fix it later.
